PROFESSIONAL SUMMARY

4th-year BS Information Technology student seeking a software development internship to apply skills in C#, ASP.NET Core, React, Vue.js, and database development. Experienced in building full-stack web and mobile applications through academic and personal projects.

TECHNICAL SKILLS

Languages: C#, Java, Python, JavaScript, TypeScript
Frameworks: ASP.NET Core, React, React Native, Vue.js, Node.js
Databases: PostgreSQL, MySQL, MongoDB, Firebase
Tools: Git, GitHub, Postman, Visual Studio, Visual Studio Code
Cloud: AWS

PROJECTS

ParkFlow - Parking Management System | 2026-2027

- Developed a full-stack parking management system for Bulacan State University using ASP.NET Core, PostgreSQL, Vue.js, and React Native.
- Implemented QR-based motorcycle entry and exit, parking session tracking, user management, and real-time monitoring to support administrative operations.

Tech: ASP.NET Core, C#, PostgreSQL, Vue.js, React Native, REST API

Istokkit - Inventory Management System | 2025

- Built a web-based inventory management system using React and Firebase with authentication, protected routes, and CRUD operations.
- Implemented dashboard metrics and data visualization to help users monitor inventory records and stock information.

Tech: React, JavaScript, Firebase, Recharts

Climora - Weather Application | 2026

- Developed a responsive weather application using Vue.js that retrieves and displays real-time weather data through an external API.
- Implemented location-based weather retrieval and a responsive interface for presenting weather information.

Tech: Vue.js, JavaScript, REST API, CSS

Second Tide - 2D Game Development School Project | 2026

- Developed a 2D top-down fishing game as a school project to learn Unity and C# game development.
- Explored player movement, fishing mechanics, UI, game states, and interactive environments; project remains unfinished.

Tech: C#, Unity, Aseprite

WORK EXPERIENCE

Encoder - La Consolacion University Philippines | January 2022 - March 2022

- Maintained accurate records and encoded data for the Institutional Effectiveness and Planning (IEP) Office.
- Organized documents and provided administrative support for day-to-day office operations.

EDUCATION

Bachelor of Science in Information Technology — Bulacan State University

2023-2027 | 4th Year

AWARDS

Hackathon Champion - BulSU 13th IT Congress | May 2023

Won 1st Place by developing an eCommerce website within the competition time limit, demonstrating front-end development, UI/UX design, problem-solving, and teamwork.
